9. Dr. K. Rama Rao: Recent Trends in Aquaculture

About the Book

The concept of recent trends in aquaculture is consisting of four chapters, it describes and explains the advanced technology in aquaculture in the present and future generations. The steps, sequence and level of knowledge are designed to cater to the needs of the students, teachers and research scholars as in the book reference guide. A concept of aquaculture management includes interesting applications and outlines of aquaculture biology.

About the Authors

Dr. K. Rama Rao, Asst. Professor of Zoology, is completed M. Sc. (Zoology) Specialization in Fisheries and Aquaculture, M. Sc. (Fish) and M. Phil. (U.A.U.), D. Litt. (Hon.) from University of Andhra Pradesh in DIT and DIT Projects. Principles Investigation of UGC Research Project, State Rank Teacher Award (Vijayawada), Vice of the Asst. Professor of Zoology Award, VTO GOOD International Science Award, 2011. Madhu Teresa Vidhya Bhushan & Seva Rathi National Award, Best Teacher Award and Best Researcher Award. Two Rare fish species were identified. 10 and 11. Aquaculture and to 7 international journals and 22 years of research and teaching experience at Degree and post graduation level. 65 Research papers were published in both international and national peer reviewed scientific journals, 35 Research papers presented at national and international symposia and conferences. Published online video lessons and virtual discussions in Zoology. Member of studies member to M.Sc. Fisheries and Zoology, published YouTube channel on Biodiversity. Look telecast lessons presented through MANA TV.

Dr. P. Ayodhya Reddy who has been working as Asst. Professor of zoology, Government degree college, addipet (A). Presently head dept of Zoology, BGS chairman for P.O. Fisheries. He did his masters in zoology and education from Chaitanya university HYD, and he has been awarded Ph.D in 2012 from Kakatiya University. He has 18 years of teaching experience as junior Lecturer, and Asst. Professor of zoology. For his credit he has been awarded with state level best teacher in zoology by CCE TS in 2016 and he is adjudged as outstanding supervisor for guiding the students for Pignasa students study projects. He participated and presented papers at state, national and international level seminars, webinars and workshops and published number of articles in ISBN publications. He is Editorial board member and serving as state level master trainer for various districts and also for census 2011 and 2021. He is the member in various academic and non academic bodies and member in academic council and governing body. He is serving as coordinator TSKC and career guidance and placement cell.

Dr. Dasari Prasanna, is currently working as an Asst. Professor, Head department of Zoology at Government Degree College for women (A) Begampet, Hyderabad. She obtained a Masters degree and was awarded a Doctorate degree from Osmania University. She acquired a Post Graduate Diploma in Computer Applications (APFE) and also qualified the State Level Eligibility test (APPSC). She has published research papers in international and national journals and contributed papers in conference proceedings and books. In addition to the above, she has also published YouTube video lessons and power point presentations on slide share website, attended orientation and refresher courses conducted by various universities and also deliberated extension lectures. She is a member board of studies and a paper setter for autonomous colleges in Telangana. She has co-authored a Zoology practical manual for B.Sc. (Telugu academy) and authored study material in for the students of first year B.Sc. Dr. D. Prasanna served as a member of the editorial committee for BJUNASA magazine 2017-2018 published by the Corporation of College Education, Hyderabad, Telangana state.

Impact of Russian Revolution on Andhra and Telugu Literature

- Smt. Angam Jayalakshmi, Assistant Professor in History, Govt Degree College Tekkali, Srikakulam District

Introduction :

The spread of Marxist and Socialist ideas in Andhra after the 1917 October Revolution in Russia had created a nucleus of dedicated young revolutionaries within the scope of the national movement in Andhra. The growth of left ideas among the youth in Andhra was through the spread of Marxist literature in the form of books, novels, poems and articles. In fact, the Andhra revolutionaries have keenly followed the Russian Revolution and the political, economic and cultural changes that followed the revolution. In the early twenties, the national press and several national leaders hailed the Russian Revolution as a great historical event and rightly thought that it would be an inspiration for the colonial liberation movements. The Newspapers like *Labour Tribune* and *The Modern Review* published articles on Socialism and the Russian Revolution. Famous Tamil poet Subramanyam Bharathi wrote an article on Russia in *Sandeshu Mitram*. In that essay, he called Lenin as the leader of the exploited people in Russia.

In Andhra the earliest reference to the October Revolution of 1917 and the subsequent changes in Russia was perhaps made by Dr. Bhikshupada Patnayakuni Sarma, an ardent scholar of Congress, who was later on, became the official historian of Congress and president of Indian National Congress. Patnayakuni wrote a lengthy article, *Socialism*, in the *Ugadi* special

number of *Andhra Patrika* for the year 1920-21, which was read by thousands of Telugu readers. In his article, the author described the evils of Capitalism and praised the Socialist economy. Describing the Soviet revolution, he denounced the propaganda done by imperialists on the Soviet Union. In his words: "Revolution is not an Act it is a change. Anti revolutionaries are trying to destroy it. But their efforts served as strength to the revolution". Describing the new system emerged in Russia, he wrote: "In Russia a labourer is paid enough wages. One need not pay money for their clothes. No postage charges for letters. No drink there is no toddy and strack. Whenever selling and buying is done through co-operatives then the seller is becoming a buyer and the buyer a seller. The middle traders, who only worked money and through money earned profits, were eliminated. To teach the philosophy of the system to the people special training was extending from six weeks to six months was given. There is no person without food, nobody without education, no rich person and no poor person. No seller, no buyer, no lazy person. No protecting soldier. The new system is having the similar characteristics of *kita singam* and there is no doubt in it".

Gurajada Appaiah Sarma's book, *Lenin Jitha Charitram* (Life history of Lenin) was perhaps the first detailed work on Soviet Russia in Telugu published in 1921, while Govindarajulu Venkata Krishnaswami's *Nitaka*
