

IQAC

ACTION TAKEN REPORT ON NATIONAL WEBINAR 2025

Government Degree College, Tekkali places significant emphasis on the research and progression of students to higher education.

National webinar was organized by IQAC and department of physics and the resource persons outlined current trends in the applied physics more specifically on atmospheric physics. Participants have given feedback – satisfactory and more such programmes will be organized in future.

Feedback was collected online from all participants.

Action Taken

The college will conduct more national and international programmes for the faculty as well as for students to gain more knowledge in various fields.
